A smoke or heat detector can be installed to the existing or new home wiring. In our basic wiring diagram, a single or multiple heat and smoke detectors are installed in the home by connecting the live (line or hot), neutral, ground and an interconnected wire to the alarm. The main supply is 120V AC (in US) and 230V AC (in EU). The detectors can be directly connected to the DB (distribution ...

How can i bypass the alarm/immobiliser on Autowatch 446RLI the car battery died, after charging the car battery the car won't start. it is dead quite when turning the key even thou the dash is lit. Try getting a friend to boost start your battery with his vehicle and see if your car will crank. If your car cranks over - you have a faulty battery. Check your battery leads, particularly the ...

How do I reset my autowatch 446rli car alarm - Fixya

The 446RLi is the small alarm that's big on protecting your vehicle. With an alarm module far smaller than others in the market, hiding the unit during installation is much easier, making it less accessible to thieves. The 446RLi also has an attack proof security housing that safely protects the immobiliser connections.
