green was the symbol of regeneration and rebirth. They tried using the copper mineral malachite to paint on tomb walls, however it was expensive and easily turned black over time.

The History of the Color Green: How the Poisonous Pigment ...  
A New Green History of the World (2007) is the new and improved version of A Green History of the World (1991), which was translated into 13 languages. British historian Clive Ponting did a fantastic amount of research, and then refined it into a very readable, mind-altering 400-page book (a silver bullet cure for folks suffering from denial).

Ponting

Green Men are usually found on religious buildings but not always: the Green Man is also a popular name for English inns and pubs! However the Green Man is an example of how images from the Old Religion were brought into Christian churches before the Reformation , and is one of the most ancient, pagan symbols to be found in the Christian church.

The Green Man - Historic UK

Green was born on 12 December 1837, the son of a tradesman in Oxford, where he was educated, first at Magdalen College School, and then at Jesus College, Oxford, where he is commemorated by the J. R. Green Society, which

meets several times a term and is run by students from the undergraduate body. He grew up in a high-church Tory family from which he rebelled as early as 1850, being "temporarily banished from his uncle's house for ridiculing the uproar over 'Papal Aggression.'".

John Richard Green - Wikipedia  
Short History of Green Pigments  
In painting (substructive color system), green is not a primary color, but is created by mixing yellow and blue. Green pigments have been used since Antiquity, both in the form of natural earth and malachite, used primarily by Egyptians. Greeks introduced verdigris, one of the first artificial pigments.

finding a concise history of  
discovery and a subsequent  
spread across the continents,  
green tea's history is much more  
convoluted and many different  
versions and legends abound  
regarding the discovery of tea.  
What can be verified, however, is  
that tea was discovered in its  
greenest form over five thousand  
years ago.
