The Needs ABC Therapeutic Model for Couples and Families: A Guide for Practitioners shows readers how to successfully tailor a therapeutic approach to meet the needs of couples and families. Beginning clinicians will come away from this book with concrete, practical skills and expanded theoretical base for their practice. They will be able to apply their new knowledge directly and in ways that will help them create long-lasting change in clients who present with difficult behaviors. The book explains the concepts and theories behind the Needs ABC approach and provides tangible methods with which to integrate aspects of the Needs ABC approach into the therapists' own therapeutic techniques. Practitioners will find that the Needs ABC model is an invaluable complement to cognitive-behavioral, integrative, and other therapeutic models, as well as a general guide to couples and family therapy.

This Family Devotional Guide was prepared to bring awareness to the Body of Christ as a more excellent way of worship unto the Lord. As believers it is our purpose to worship the Lord and we must begin to know Father God in a more excellent way. So many times, I hear people talk about God as though He is so far away like a far distant cousin they have - but rarely ever see or talk to. We often claim to know God, but not in a more intimate way as we should and could, so we simply only know about him. Our intimacy begins with our conversations with our Father. We must know that prayer is our communication, our communing with Daddy God. It is our acknowledgment of our Creator, our Master. As His children begin to acknowledge and speak of His many character qualities, dimensions, and attributes, this will depict the vast Excellencies of his matchless names and marvelous works. We will then begin to develop an intimate relationship with Abba Father to speak well of Him in our devotion times. As we draw nigh to Daddy God, He will draw nigh to us (James 4:8).

Includes valuable information about topics that concern lead poisoning, immunizations, autism, asthma, ADD/ADHD, lice, warts, colds, immune system, and many other topics that concern your child in one easy to read book.

Challenging behavior, while common, can have a significant negative impact on the lives of children and their families. A child's behavior problems can exacerbate developmental setbacks and disrupt overall family functioning. Furthermore, families of children with behavior problems are often at risk for drop out of intervention programs. This facilitator guide, along with the corresponding workbook, aims to assist parents who have difficulty completing parent training and implementing interventions. It uses a fresh and resourceful approach, combining principles of applied behavior analysis, tools of positive behavior support (PBS), and cognitive restructuring techniques. Parents begin by gathering information about what sets off their child's problem behavior, as well as what their child gets or avoids from misbehaving. They then learn strategies to prevent problems, manage consequences, and teach their child skills. A behavior support plan is designed that fits the family's needs and goals. Once the plan is put into place, it is monitored for effectiveness and adapted as necessary. Throughout the program, parents practice positive thinking skills, which can enhance their parenting abilities. This guide gives detailed instructions for conducting the optimism training and steering parents through the PBS process. The parent workbook provides assessment tools and forms to help the family carry out the intervention steps and track progress. The positive family intervention program may be useful for a variety of behavior problems and in conjunction with treatment for other disorders. It can be used with a range of ages and family situations. Facilitators working with families of children with challenging behavior will find this an invaluable guide.
