Avul Pakir Jainulabdeen Abdul Kalam, The Son Of A Little-Educated Boat-Owner In Rameswaram, Tamil Nadu, Had An Unparalled Career As A Defence Scientist, Culminating In The Highest Civilian Award Of India, The Bharat Ratna. As Chief Of The Country`S Defence Research And Development Programme, Kalam Demonstrated The Great Potential For Dynamism And Innovation That Existed In Seemingly Moribund Research Establishments. This Is The Story Of Kalam`S Rise From Obscurity And His Personal And Professional Struggles, As Well As The Story Of Agni, Prithvi, Akash, Trishul And Nag--Missiles That Have Become Household Names In India And That Have Raised The Nation To The Level Of A Missile Power Of International Reckoning.

Dr. Kalam was born and brought up in a multi-religious, multi-ethnic community, and this type of milieu had a profound effect on his personality. He gave equal respect to all faiths and religions; and he did not pay only lip-service to different religions. During his life, he visited the saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic understanding about him. He took up the challenges and worked on them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of the most popular public figures of all times. May his soul rest in peace! —K. Senthil Kumar, IAS

What is it that we as a nation are missing? Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best? At the heart of Ignited Minds is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam’s vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

Maulana Azad is considered one of the greatest Urdu writers of the 20th century. He has written many books including India Wins Freedom, Ghubar-e-Khatir, Tazkirah, Tarjumanul Quran, etc. It is often said that his book India wins Freedom is about his political life and Ghubar-e-Khatir deals with his social and spiritual life.

Dr APJ Kalam abolished the practice of having a larger chair for the Rashtrapati on a dias when attending any function He regularly read both the Quran and the Geeta and played the veena and wrote poetry in his spare time His favourite Mahabharata character was Vidura because he had the courage to differ and fight injustice in a peaceful manner Caliph Umar, Mahatma Gandhi, Albert Einstein, Emperor Ashoka and Abraham Lincoln were the five greatest human beings to have lived on this earth according to Dr Kalam The author, SM Khan,acquaints us with lesser known facts and stories which went towards making the great Dr Kalam the 'People's President'. SM Khan was presssecretarytothelateAPJAbdulKalam and shared a unique relationship with the unusual President. The first state visit made by Dr Kalam in 2002 after swearing in as President was to Gujrat where he was received at the airport by the then Chief Minister and now Prime Minister of India, Mr Narendra Modi. Together they visited nine riot-torn areas and three relief camps. Details of this visit as well as those to the other states in India and various trips abroad in the course of his Presidency are captured in this book in a manner that is engaging and informative. Interspersed with interesting anecdotes and happenings, this comprehensive compendium of Dr Kalam's experiences as the President of India finally culminate in his post-presidency days with SM Khan's last poignant meeting with Dr Kalam just a few days before his passing away. A must read for both fans and those who wish to know more about the People's President, Dr APJ Kalam.

This book is an account of how Dr. Kalam visualizes Information and Communication Technology mining the rural talent. Here, Dr. Kalam presents his dream of schools in India at 2020 as symbiotic nerve centres connecting teachers, students and community; personifying knowledge that exists in the world. He also makes a clarion call to accelerate the process of societal transformation. This would involve raising the standards of governance and safeguarding the sanctity of public institutions. The book uses the metaphor of a tree to describe the process of knowledge bearing fruits of prosperity in the contemporary globalized world where different phases, formative, adult working life, and post-50 experienced senior citizens, call for different kinds of learning. The book refers to a contextual contribution of a large number of Indian scientists and artists and proves that there is no age bar to blossom. He advocates creation of conditions that favour growth of diverse individual talents akin to a garden and calls for a scientific mind-set guided by conscience, consensus and by actions that take our social and moral values into account in building our own systems.
