Classify Triangles by Sides You can classify a triangle by the measures of its sides. Equal numbers of hash marks indicate congruent sides. • If all three sides of a triangle are congruent, then the triangle is an equilateral triangle. • If at least two sides of a triangle are congruent, then the triangle is an isosceles triangle.

The Study Notebook contains a note-taking guide for every lesson in the Student Edition. This notebook helps students: Preview the lesson, Build their mathematics vocabulary knowledge, Organize and take notes using graphic organizers, Increase their writing skills, and Prepare for chapter tests.

The theorems and principles of basic geometry are clearly presented in this workbook, along with examples and exercises for practice. All concepts are explained in an easy-to-understand fashion to help students grasp geometry and form a solid foundation for advanced learning in mathematics. Each page introduces a new concept, along with a puzzle or riddle which reveals a fun fact. Thought-provoking exercises encourage students to enjoy working the pages while gaining valuable practice in geometry.

Includes: Print Student Edition

Softbound Interactive Student Text is divided into a two-volume set that is perforated and 3-hole punched for easy organization for middle school students. This is volume 1.
