We began by writing about how to become certified as an HVAC technician. With rules and certifications varying for each state, it was a challenging task. We had a few friends in other states help us out, but for some states, we had to dig really deep to find the information needed. Our audience at the time was very happy with the information we provided. At this point, we started getting many questions about EPA 608 certification. Once you get the education and experience needed to become a technician, prospective employers will ask for certification to handle refrigerants. When we started writing about how to become certified, viewers again requested we write a study guide to help them prepare for the 608 exams. The study

Guides out there were dense and had much more information than was needed to pass the test. This inspired us to embark on a journey to write the simplest study guide for the EPA 608 exam, which would still cover all the necessary information. We hope we have achieved our intended objective. after she loses her family to the violence of the drug cartel in Mexico. Crossing the border into Texas turns out to be the easy part. Virtually penniless and enticingly innocent, she soon finds herself at the mercy of Travis Blake. Travis is a hard-working, self-made rancher that has never known love or softness of any kind. His only use for women is sexual, and Selena is caught on his ranch with no way out. While Selena plots her escape from his control, Travis ruthlessly and methodically tightens his possession and makes it impossible for her to leave. The struggle that follows is a clash of wills that pits purity against passion, virtue against vice and love against lust.
