Hunter x Hunter is an anime television series that aired from 2011 to 2014 based on Yoshihiro Togashi's Hunter x Hunter manga. The story begins with a young boy named Gon Freecss, who one day discovers that the father who he thought was dead, is in fact alive and well. He learns that his father, Ging, is a legendary "Hunter", an individual who has proven themselves an elite member of humanity.

### Hunter x Hunter (2011 TV series) - Wikipedia

Twelve-year-old Gon Freecss catches Whale Island's monster fish, the "Master of the Swamp" to gain permission from his Aunt Mito Freecss to take the Hunter Exam. Aboard the ship going to the location of the examination, Gon impresses the Captain when he predicts a violent storm approaching and meets Leorio and Kurapika.

Single Stage to Orbit traces the interplay of technology, corporate interest, and politics, a combination that well served the conservative space agenda and ultimately triumphed—not in the realization of inexpensive, reliable space transport—but in a vision of space militarization and commercialization that would appear settled United States policy in the early twenty-first century.

Strange sagas of mysterious monsters and bizarre beasts have appeared all over the world for years. In this captivating volume, readers will come face to face with tales of the terrifying and just plain weird. A chronological approach addresses interest stemming from world events such as World War II, and the changing, developing research. Interviews, testimonies, photographs, and reports encourage readers to further scrutinize whether or not such strange stories are the stuff of myth or if there could be more reasonable, even scientific, explanations for the so-called unexplained.

- Reviews of more than 900 manga series
- Ratings from 0 to 4 stars
- Guidelines for age-appropriateness
- Number of series volumes
- Background info on series and artists

"A special and rare kind of ethnography, skillfully blending detailed description of behavior with thoughtful commentary on theoretical issues. Exceptionally important and enduring."--Bruce Winterhalder, co-editor of *Evolutionary Ecology and Human Behavior*

Few federal agencies have more extensive ties to the private sector than NASA. NASA's relationships with its many aerospace industry suppliers of rocket engines, computers, electronics, gauges, valves, O-rings, and other materials have often been described as "partnerships." These have produced a few memorable catastrophes, but mostly technical achievements of the highest order. Until now, no one has written extensively about them. In *NASA and the Space Industry*, Joan Lisa Bromberg explores how NASA's relationship with the private sector developed and how it works. She outlines the various kinds of expertise public and private sectors brought to the tasks NASA took on, describing how this division of labor changed over time. She explains why NASA sometimes encouraged and sometimes thwarted the privatization of space projects and describes the agency's role in the rise of such new space industries as launch vehicles and communications satellites.

Branded as rebels and traitors, the members of the Alliance worked from the shadows, gathering information and support from across the galaxy to bring an end to the Empire's tyranny. This information has been kept hidden until now. Discovered in the ruins of an abandoned rebel base, these files have been passed among members of the Resistance, who have added notes, updates, and new insights to the documents. A repository of Alliance intelligence, *The Rebel Files* weaves together classified documents, intercepted transmissions, and gathered communications to trace the formation of the Rebel Alliance. Unlock the secrets of the Rebel Alliance!

Covering more than eighty years of anime history and over three thousand titles, the authors show how the anime universe has influenced creative cultures far beyond its native Japanese shores.

Plucky Gon's quest to find his dad leads him into a whole world of crazy adventure. Hunters are a special breed, dedicated to tracking down treasures, magical beasts, and even other people. But such pursuits require a license, and less than one in a hundred thousand can pass the grueling qualification exam. Those who do pass gain access to restricted areas, amazing stores of information, and the right to call themselves Hunters. Gon and his friends Leorio and Kurapika have more to worry about than just the Hunter Exam--their fellow applicants are deadly serious. Hisoka, the mad magician, nearly kills them in a mock test and Killua reveals that appearances can be deceiving. Then there are the tests, which prove to be as varied as they are difficult. The picky proctors of the second exam demand the applicants perform culinary feats of wonder, and it takes the intervention of the President of the Hunter Association Review Board to convince them to let anyone pass at all!

Gon's new friend Killua may have run away from home, but that doesn't mean his family is willing to let him leave. Killua's parents sent his older brother Illumi to keep an eye on him during the Hunter Exam, and now Illumi has convinced Killua to return to the family business of assassination. Gon is convinced that Killua must have been brainwashed, and sets out with Leorio and Kurapika to make an intervention. But before the newly licensed Hunters can try to talk some sense into Killua, they have to make it past the unstoppable guard beast that is trained to eat all visitors! -- VIZ Media
