Kaiser Nursing Medication Administration Practice Test [EPUB] medication administration--right dose. Determining the right dose frequently requires the nurse to calculate how much of the drug to give based on physician order and the medication available. It is estimated that 42% of medication errors are due to errors in administration, one step of which is drug dose calculation.

Through professional practice and leadership, nurses at Kaiser Permanente continually advance the art and science of nursing. But we recognize that what we do is more than clinical practice. We believe that every interaction — whether it is with a patient, a colleague, a physician, or anyone else — has the potential to be extraordinary.
