Over the last two decades, cost management has been an area of dynamic change and development. This is evident in the extensive inventory of new, high-profile techniques that have emerged. With cost management now firmly established as a distinct sub-discipline within management accounting, The Routledge Companion to Cost Management is a timely reference volume covering both practical developments and research in this area. Topics covered include: Cost control issues Cost analysis and decision making Cost management systems Environmental cost management With chapters from an international team of contributors, this prestigious companion will prove an indispensable addition to any library with aspirations of keeping up-to-date with the world of accounting.

This is a text for introductory courses on cost and management accounting. It provides coverage of the elementary principles and techniques of costing and management accounting, and concentrates on the typical syllabus of a first year BA course.

In order to plan strategy and manage effectively, it is vital that HR practitioners understand the importance and use of financial information and the issues surrounding it. Managing Financial Information offers a clear and accessible guide to the financial tasks that HR managers face in daily working practice, including the balance sheet, costing and budgeting, and the financial implication of human resource decisions. An easy to follow structure, reflective questions and engaging assignments that show the reader how to put theory into practice will ensure an understanding of all key elements of financial management. This revised edition includes two fresh chapters that provide an introduction to management accounting, and budgets and human behaviour, and content that demonstrates how the theory relates to human resource management systems in particular. Designed for CIPD students taking the Managing Information for Competitive Advantage module as part of the CIPD Leadership and Management standards, any student taking a finance for non-specialists module on an HR degree programme, and any practitioner wishing to further their skills, Managing Financial Information works through every stage from the very basics and is essential reading to ensure the thorough financial grounding that will help you succeed.

Budgeting is at the heart of the performance management process for most companies. However, some argue that many companies today are dissatisfied with budgeting. It is seen to be costly and time-consuming; it inhibits action and causes organisational problems. The influence of the "Beyond Budgeting" model has caused many major companies, including Toyota, to abandon traditional budgeting altogether. Should other companies follow suit? Budgeting Practice and Organisational Structure explores the changes in budgeting through a survey of financial and non-financial managers. Concerns include: The attitudes of managers towards budgeting models How budgetary practices have changed What problems budgeting can cause The effects of budgets on overall company performance. This report reveals that there's little evidence to suggest widespread dissatisfaction with traditional budgeting. However, to enable a company to perform at its best, understanding budgeting in context is essential and it is imperative that budgeting works in tandem with other control systems and organisational structure. Original research funded by the Chartered Institute of Management Accounting Reveals the realities of budgeting models in practice Includes interviews and surveys of actual businesses

For non-accountant hospitality managers, accounting and financial management is often perceived as an inaccessible part of the business, yet understanding is crucial for success. Using an 'easy to read' style, this book provides a comprehensive overview of the most relevant accounting information for managers. It demonstrates how to organize and analyze accounting data to help make informed decisions with confidence. With its highly practical approach, this book: • quickly develops the reader's ability to adeptly use and interpret accounting information to further organizational decision making and control • demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base • develops mastery of the key accounting concepts through financial decision making cases that take a hospitality manager's perspective on an issue • sets financial problems in the context of a range of countries and currencies • includes two new chapters on internal control and performance management • offers further resources at www.routledge.com/tourism including a suite of worked contextualized cases in Tourism, Events and Sport Management. The all new companion website includes the suite of contextualised examples, PowerPoint lectures aligned to each chapter, solutions to all end-of-chapter problems, a student revision test bank and a password protected test bank available to lecturers who adopt this book as required student reading. These resources are SCORM compliant and compatible with institutions' Learning Management Systems.

The recent audit failures which have rocked financial markets worldwide have accentuated the need for a better understanding of the link between risk, control and audit quality; as well as emphasising the need to open the "black box" of the ways auditing firms actually function. Reflecting these imperatives, Auditing Teams unravels the organizational and management issues in audit firms that are key to achieving effectiveness in service provision. Specifically, this key research reflects upon the relevance and dynamics of auditing teams and their impact on auditing quality, and specifically responding to the recent claim from regulators which highlights auditing team characteristics as the source of wide variations in quality. By leveraging different perspectives – auditing, management accounting, organization and psychology – to investigate auditing teams and basing on evidence collected from the professional world, this book will provide a unique insight into the role of auditing teams on audit quality. It will be of great interest to scholars and advanced students in auditing, as well as to practitioners and regulators in the field.

Marketing Management: A Contemporary Perspective provides a fresh new perspective on marketing from some of the leading researchers in Europe. The book offers students and practitioners the comprehensive coverage they need to make the right decisions to create and implement highly successful marketing strategies. This exciting new edition includes updated cases and combines scholarly international research with relevant and contemporary examples from markets and brands across the world. The authors combine their experience as researchers and industry consultants to provide the conceptual and theoretical underpinning of marketing and empirical research, helping students to understand how marketing concepts can be applied and implemented. The book covers a full range of industries including business-to-customer, business-to-business, services marketing, retailing and international marketing from companies around the globe.

Managing Financial Resources addresses the complicated issues of financial planning and control. These include performance measures and cost analysis, methods of improving profitability and techniques of financial monitoring and control. Real examples and case studies are used throughout to illustrate points in a practical context. All chapters have been updated and new material has been added to extend the original text in areas such as public sector management issues, audit commission, capital investment decisions, stakeholder analysis for published reports and accounts, performance measurement, outsourcing, new developments in the public sector and transfer pricing. This book is based on the Management Charter Initiative's Occupational Standards for Management NVQs and SVQs at level 4. It is particularly suitable for managers on the Diploma in Management or part 1 of the Postgraduate Diploma, especially those accredited by the Chartered Management Institute and Edexcel but this also a useful text for practicing managers and those individuals studying for a MBA.
