Yes, I already have a complete set of templates for the MD-80 series, but the DC-9 is a major aircraft type that I needed to get into my collection ASAP. The good news is that I think it's going to be a lot easier than the 737 series was. There are only a handful of major DC-9 variants, and all of them are relatively similar to one another. In order to keep things as simple and organized for me, I've decided to start with the latest version first (the -50) and then work my way backwards.
