In this in-depth study, Peter Kamande Thuo explores the complexity of accurately understanding, interpreting, and translating Scripture, especially biblical metaphors. Engaging the need for a stronger theoretical framework for conceptualizing and communicating metaphors across languages, Dr Thuo proposes a complementary approach that utilizes relevance theory to bridge gaps presented by conceptual metaphor theory and cognitive linguistics. Yet this book is far more than an abstract theoretical treatise. Dr Thuo offers the example of the "circumcised heart" of Romans 2 as a case study, providing practical guidance for his readers as he demonstrates the process of translating such a phrase into Kikuyu. So doing, he reminds us that the challenge of understanding, interpreting, and applying biblical metaphors across culture and language is not limited to the work of professional translation. Rather, it is at the heart of all scholarship, discipleship, and pastoral teaching and the task of every person engaged in reading the word of God.

Together with a list of auxiliary and cooperating societies, their officers, and other data.

"From St. Augustine and early Ethiopian philosophers to the anticolonialist movements of Pan Africanism and Negritude, The Oxford Encyclopedia of African Thought offers a comprehensive view of African thought, covering the intellectual tradition on the continent and throughout the diaspora. All major trends in African philosophy, political theory, and religion will be covered, as well as significant historical figures and social movements" -- homepage, viewed September 7, 2010.

How can African theology survive the self-repetition of mere cultural apologia or contextualization-stereotypes, and mature into a critical theoretical discipline responding to the challenges of the postmodern world-order? Dr. Humphrey M. Wawe contributes here a sound theological reflection using the hitherto unused methodological paradigm of mapping the inroads in the transaction between the Bible and African culture.

"Readership: Historians and social anthropologists of Africa and India and all those interested in modern intellectual history, in the interactions between orality and literacy, and in local/global and local/state relationships."--BOOK JACKET.

This book is critically important for Bible translation theorists, postcolonial scholars, church leaders, and the general public interested in the history, politics, and nature of Bible translation work in Africa. It is also useful to students of gender studies, political science, biblical studies, and history-of-colonization studies. The book catalogs the major work that has been undertaken by African scholars. This work critiques and contests colonial Bible translation narratives by privileging the importance African oral vitality in rewriting the meaning of biblical texts in the African sociopolitical, political, and cultural contexts.
