Nlp For Project Managers - CheckyKey

We all know that so called 'soft skills' are necessary for effective project management. Emotional intelligence frameworks help to define soft skills and show how they are important, but are they constant or can they be improved, and if so, how? Neuro Linguistical Programming (NLP) is the study of human excellence. It is the science of how the brain codes learning and experience, and can be described as a user's manual for the brain.

NLP for project managers

I kept hearing buzz about Natural Language Processing (NLP), from the advances with BERT, to the number of use cases such as sentiment analysis, marketing, health care, and HR & recruiting.Gartner noted it as Data & Analytics Trend #3 in 2019, while in 2020, NLP was folded in with machine learning as Trend #1.. I wanted to explore NLP, but I found it is annoyingly difficult to get started.

Automating a Natural Language Processing environment with ...

Peter has done a great job outlining 1) Project Management, 2) NLP, and 3) How NLP can enable a step change improvement when managing projects. However I think the book deserves a wider readership. Much of business today is about managing projects, and with it change.
