The Martian begins in the near (and undated) future. Astronaut Mark Watney is a botanist and mechanical engineer on the American Ares 3 mission to Mars, following two successful Ares missions that have been met first with earthly excitement, then mostly indifference. After a couple days on Mars, a giant dust storm disrupts the astronauts' mission and forces an abort.

The Martian Summary | GradeSaver

Millions of miles away, NASA and a team of international scientists work tirelessly to bring "the Martian" home, while his crewmates concurrently plot a daring, if not impossible, rescue mission. As these stories of incredible bravery unfold, the world comes together to root for Watney's safe return.
