Stephen Fry, The Ode Less Travelled: Unlocking the Poet Within (Gotham, 2005) I think every poet at some point, no matter how much they've been raised on free verse, turns his or her attention to formal verse. Thus the enduring popularity of form dictionaries (my personal favorite has always been Dacey and Jauss' Strong Measures).

~~The Ode Less Travelled: Unlocking the Poet Within ...~~

The Ode Less Travelled: Unlocking the Poet Within is a book by author, actor, comedian, and director Stephen Fry about writing poetry. Fry covers metre, rhyme, many common and arcane poetic forms, and offers poetry exercises, contrasting modern and classic poets. Fry's starting point can be summed up by the quotation with which he heads Chapter One: 'Poetry is metrical writing./If it isn't that I don't know what it is.'

In his new book, "The Ode Less Travelled: Unlocking the Poet Within," Stephen Fry creates a veritable topiary garden of poetry, providing not only an encyclopedic overview of poetic meters and forms in English but a cogent, bracing and witty demonstration of their value.

A guide to writing poetry covers different poetic forms, structures and techniques.

Comedian and actor Stephen Fry's witty and practical guide, now in paperback, gives the aspiring poet or student the tools and confidence to write and understand poetry. Stephen Fry believes that if one can speak and read English, one can write poetry. In The Ode Less Travelled, he invites readers to discover the delights of writing poetry for pleasure and provides the tools and confidence to get started. Through enjoyable exercises, witty insights, and simple step-by-step advice, Fry introduces the concepts of Metre, Rhyme, Form, Diction, and Poetics. Most of us have never been taught to read or write poetry, and so it can seem mysterious and intimidating. But Fry, a wonderfully competent, engaging teacher and a writer of poetry himself, sets out to correct this problem by explaining the various elements of poetry in simple terms, without condescension. Fry's method works, and his enthusiasm is contagious as he explores different forms of poetry: the haiku, the ballad, the villanelle, and the sonnet, among many others. Along the way, he introduces us to poets we've heard of but never read. The Ode Less Travelled is not just the survey course you never took in college, it's a lively celebration of poetry that makes even the most reluctant reader want to pick up a pencil and give it a try.

Read Free The Ode Less Travelled Unlocking The Poet Within

If you can speak and read English, you can write poetry. The trick is knowing where to start. Stephen Fry, who has long written poems, and indeed has written long poems, for his own private pleasure, invites you to discover the incomparable delights of metre, rhyme and verse forms. Whether you want to write a Petrarchan sonnet for your lover's birthday, an epithalamion for your sister's wedding or a villanelle excoriating the government's housing policy, *The Ode Less Travelled* will give you the tools and the confidence to do so. Brimful of enjoyable exercises, witty insights and simple step-by-step advice, *The Ode Less Travelled* guides the reader towards mastery and confidence in the Mother of the Arts.

From the bestselling author of *How to Read Literature Like a Professor* comes this essential primer to reading poetry like a professor that unlocks the keys to enjoying works from Lord Byron to the Beatles. No literary form is as admired and feared as poetry. Admired for its lengthy pedigree—a line of poets extending back to a time before recorded history—and a ubiquitous presence in virtually all cultures, poetry is also revered for its great beauty and the powerful emotions it evokes. But the form has also instilled trepidation in its many admirers mainly because of a lack of familiarity and knowledge. Poetry demands more from readers—intellectually, emotionally, and spiritually—than other literary forms. Most of us started out loving poetry because it filled our beloved children's books from Dr. Seuss to Robert Louis Stevenson. Eventually, our reading shifted to prose and later when we encountered poetry again, we had no recent experience to make it feel familiar. But reading poetry doesn't need to be so overwhelming. In an entertaining and engaging voice, Thomas C. Foster shows readers how to overcome their fear of poetry and learn to enjoy it once more. From classic poets such as Shakespeare, Samuel Taylor Coleridge, and Edna St. Vincent Millay to later poets such as E.E. Cummings, Billy Collins, and Seamus Heaney, *How to Read Poetry Like a Professor* examines a wide array of poems and teaches readers: How to read a poem to understand its primary meaning. The different technical elements of poetry such as meter, diction, rhyme, line structures, length, order, regularity, and how to learn to see these elements as allies rather than adversaries. How to listen for a poem's secondary meaning by paying attention to the echoes that the language of poetry summons up. How to hear the music in poems—and the poetry in songs! With *How to Read Poetry Like a Professor*, readers can rediscover poetry and reap its many rewards.

A controversial psychological examination of how soldiers' willingness to kill has been encouraged and exploited to the detriment of contemporary civilian society. Psychologist and US Army Ranger Dave Grossman writes that the vast majority of soldiers are loath to pull the trigger in battle. Unfortunately, modern armies, using Pavlovian and operant conditioning, have developed sophisticated ways of overcoming this instinctive aversion. The mental cost for members of the military, as witnessed by the increase in post-traumatic stress, is devastating. The sociological cost for the rest of us is even worse: Contemporary civilian society, particularly the media, replicates the army's conditioning techniques and, Grossman argues, is responsible for the rising rate of murder and violence, especially among the young. Drawing from interviews, personal accounts, and academic studies, *On Killing* is an important look at the techniques the military uses to overcome the powerful reluctance to kill, of how killing affects the soldier, and of the societal implications of escalating violence.

An introduction to the sound, rhyme, meter, and scansion of metrical poetry with examples from the Elizabethan Age to Elizabeth Bishop

“Magnificent . . . poems to inspire [with] brief and brilliant, offhand notes about how to read them.” —Alan Cheuse, NPR Quick, joyful, and playfully astringent, with surprising comparisons and examples, this collection takes an unconventional approach to the art of poetry. Instead of rules, theories, or recipes, *Singing School* emphasizes ways to learn from great work: studying magnificent, monumentally enduring poems and how they are made—in terms borrowed from the “singing school” of William Butler Yeats's “Sailing to Byzantium.” Robert Pinsky's headnotes for each of the 80 poems and his brief introductions to each section take a writer's view of specific works: William Carlos Williams's “Fine Work with Pitch and Copper” for intense verbal music; Emily Dickinson's “Because I Could Not Stop for Death” for wild imagination in matter-of-fact language; Robert Southwell's “The Burning Babe” for surrealist aplomb; Wallace Stevens's “The House Was Quiet and the World Was Calm” for subtlety in meter. Included are poems by Aphra Behn, Allen Ginsberg, George Herbert, John Keats, Mina Loy, Thomas Nashe, and many other master poets. This anthology respects poetry's mysteries in two senses of the word: techniques of craft and strokes of the inexplicable.

There are numerous introductions to poetry and prosody available, but none at once so comprehensive and so accessible as this. With the increasing emphasis on free verse, the past generation has developed a widespread impression that the study of poetic meter is old-fashioned—or even that form ‘doesn't matter’ in poetry. It is an impression that has not been dispelled by the emphasis of some of the existing texts in the area on forms that are now rare or outmoded. The irony is that simultaneously in the past decade interest in formal matters among many poets and literary scholars has been on the increase; the reality is that prosody is today on the cutting edge of literary studies. Stephen Adams' text provides a full treatment of traditional topics, from the iambic pentameter through other accentual-syllabic rhythms (trochaic, dactylic and so on) and covering as well other metrical types, stanza structure, the sonnet and other standard forms. Adams also includes a variety of topics not covered in most other introductions to the topic; perhaps most significantly, he provides a full chapter on form in free verse. Moreover, he treats rhyme extensively and includes a comprehensive chapter on literary figures. *Poetic Designs* is thus much more than an introduction to prosody; it is a concise but comprehensive introduction to the nature of poetry in English. It is a book for the general reader and the aspiring writer as well as for the student, a book intended (in the words of the author) to help ‘heighten the experience of poetry.’

But when he arrived at Cambridge he was a convicted thief, an addict, and a failed suicide, convinced that he would be expelled. Instead, university life offered him love and the chance to entertain. He befriended bright young things like Hugh Laurie, now the star of *House*, and Emma Thompson. This is the hilarious and utterly compelling story of how the Stephen the world knows (or thinks it knows) took his first steps in the worlds of theater, radio, television, and film. Tales of scandal and champagne jostle with insights into hard-earned stardom. *The Fry Chronicles* is not afraid to confront the chasm that separates public image from private feeling, and it is marvelously rich in trademark wit and verbal brilliance.

Entertaining and brilliantly written, this is a pretty reckless romp of a history through classical music and much much more.
