Everyone The Vanishing Word

The Vanishing Word: The Veneration of Visual Imagery in the Postmodern World. Hunt contrasts our word-dependent Judeo-Christian heritage with image-dependent paganism. He warns that by exalting imagery we risk becoming mindless pagans to be abused by those who exploit the image but neglect the Word.

Cambridge English Dictionary

The word "sinister" is Latin for "left," because left-handed people were often thought of as suspicious, evil, or demonic. The word for fear of palindromes, "aibohphobia," is actually ironically constructed as a palindrome. Bob Dylan was the first songwriter to win the Nobel Prize in Literature in October 2016.

The Vanishing Word chronicles the triumph of images in postmodern American culture. In this fine book, Arthur W. Hunt III invites us to engage historical dynamics driving our hyper-mediated, digital world and invites us to become mindful of present forms of image-driven paganism that distract us from fruitful Christian living and supplant Bible-centered worship, learning, and practices in Christian communities.

everything. Americans spend hours watching television but rarely finish a good book. Words are quickly losing their appeal. Arthur Hunt sees this trend as a direct assault on Christianity. He warns that by exalting imagery we risk becoming mindless pagans. Our thirst for images has dulled our minds so that we lack the biblical and mental defenses we need to resist pagan influences. What about paganism? Hunt contends that it never died in modern Western culture; image-based media just brought it to the surface again. Sex, violence, and celebrity worship abound in our

bestselling author of *The Mothers*, a stunning new novel about twin sisters, inseparable as children, who ultimately choose to live in two very different worlds, one black and one white. The Vignes twin sisters will always be identical. But after growing up together in a small, southern black community and running away at age sixteen, it's not just the shape of their daily lives that is different as adults, it's everything: their families, their communities, their racial identities. Many years later, one sister lives with her black daughter in the same

southern town she once tried to escape. The other secretly passes for white, and her white husband knows nothing of her past. Still, even separated by so many miles and just as many lies, the fates of the twins remain intertwined. What will happen to the next generation, when their own daughters' storylines intersect? Weaving together multiple strands and generations of this family, from the Deep South to California, from the 1950s to the 1990s, Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American

history of passing. Looking well beyond issues of race, The Vanishing Half considers the lasting influence of the past as it shapes a person's decisions, desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times–bestselling debut *The Mothers*, Brit Bennett offers an engrossing page-turner about family and relationships that is immersive and provocative, compassionate and wise.

anyway? And when did you last hear someone refer to the wireless? What was the original paraphernalia? Would you wear a billycock? Language is always changing, and here Michael Quinion, author of the bestselling *POSH and Other Language Myths*, has gathered together some fascinating examples of words and meanings which have vanished from our language. Sometimes a word is lost when the thing it describes becomes obsolete, sometimes it survives in a figurative sense while the original meaning is lost, and sometimes it simply gives way to a more popular alternative. The story of

become so negative they are nearly conversation-enders. Jonathan Merritt knows this frustration well. After moving from the Bible Belt to New York City, he discovered that the sacred terms he used to describe his spiritual life didn't connect as they had in the past. This launched him into an exploration of an increasing American reluctance to talk about faith—and the data he uncovered revealed a quiet crisis of affecting millions. In this groundbreaking book, Jonathan revives ancient expressions through incisive cultural commentary,
